The background of the entire page is a solid dark green. It is decorated with two sets of horizontal, wavy lines in a lighter shade of green. The first set of waves is located in the upper third of the page, and the second set is in the middle third. These waves have a soft, ethereal quality, with some areas appearing slightly more opaque than others, creating a sense of depth and movement.

FRUIT OF THE LOOM®

Our own industry-leading **Code of Conduct** sets the standard, and applies not only to us, but to our suppliers and business partners too. We ensure that independent audits of all production facilities and third party suppliers are in compliance with our Fruit Code. As far as we see it, the only way to do things is the *right* way.

ETHICALLY VERIFIED BY INDEPENDENT ORGANISATIONS

Oeko-Tex is an internationally-renowned testing and certification system for textiles. Every Fruit of the Loom garment is Oeko-Tex Standard 100 approved, which certifies that all our textiles contain absolutely no substances that are harmful to humans or the environment.

WRAP is an organisation dedicated to ensuring lawful, humane and ethical manufacturing across the world. All Fruit of the Loom facilities, plus those of our suppliers, are WRAP certified, and our plant in Morocco has been awarded a Gold Certificate, demonstrating our very high standards in relation to the 12 WRAP principles.

Human rights couldn't be more important to Fruit of the Loom, from raw material to finished garment. That's why we only use ethically-produced yarn, with the majority of our raw cotton coming from the USA. We do not use Uzbekistan cotton and require that all our suppliers and partners refrain from directly buying cotton from Uzbekistan, nor do they source yarn or textiles from suppliers who do.

EXCEPTIONAL ENVIRONMENTAL CREDENTIALS

Our purpose-built plant in Morocco was designed to reflect the emphasis we put on clean manufacturing and we use all the technology we can to make a real difference to our consumption and output.

Our efficient use of water at the factory was a priority, and our water treatment facility has been recognised at a local and international level. Any water we use is treated (we recycle up to 60%) and returns to the river cleaner than it arrived; since we began returning clean water to the river, the river bed has regenerated and it is now alive with fish downstream.

We believe in doing the right thing!

GILDAN®

Our Ethical Trading Responsibility

We work with our factories all over the world, but before doing so we ensure that they share our passion for the outdoors and that they follow the same working ethics as we do. Before we consider working with a supplier, we check that they are as passionate about what they do, as we are. Following an initial introductory letter which clearly shows our commitment to Ethical Trading (*including a Child Labour Zero Tolerance Letter and a AZO dye Letter and PFOS fabric protector letter*) a visual factory evaluation will be carried out. The workers and managers of the factory are then questioned further. It is our responsibility to ensure all suppliers understand the code and the importance of it.

In addition to our own evaluations, we also use a recognised third party organisation, called SGS (**LINK**) that carries out strict ethical inspections.

SGS will initiate training to ensure each factory understands the audit requirements and can prepare the necessary documentation. The audit is scored on a points basis with 95% classed as outstanding and 60% and below as not recommended. Those suppliers with 70% and above will be passed. An action plan is sent out and we would work with the factory on all recommendations suggested to help them achieve the best level they can. Each month new targets are set to encourage our suppliers to continually improve and they are monitored by regular visits from the UK and our office in the Far East.

Child labour- Zero Tolerance

- Child labour is not tolerated by Regatta.
- No children younger than the minimum age established by law or under an age interfering with compulsory schooling shall be employed.
- Each worker is required to provide an ID card or proof of age documents before employment commences.
- In the event that child labour is found, the supplier must immediately react with due consideration for the care of the children.
- No new recruitment of children shall occur.
- Further breaches will prevent Regatta from continuing to work with the factory.
- Young persons under the age of 18 shall not be employed at night or in hazardous conditions.

OEKOTEX

For a long time, SOL'S has demanded that no toxic colors to the skin or environment are used in their factories. SOL'S is certified Oeko Tex standard 100 (ZSOL 027101) for T-shirts and cotton-based polo-shirts.
