# SOLAR SIGNS

Sign & Display
Collection 2021

Why choose our market-leading range of signs and displays?

- **Award winning** designs for every area of promotional signage and display.

- **Low cost, high impact** designs for maximum return on investment.

- Developed for and used by many **leading brands and retailers** throughout the UK, Europe and beyond.

- Many **unique features** and **benefits.**

- **Huge stocks** and **fast delivery** of most popular lines.

- Most products available with no **minimum order quantities** and no small quantity surcharges.

- **Custom colours and sizes** available on many lines.

- High quality screen and digital **print service available.**

ICON KEY

Recyclable: This icon will note the recyclable materials that are used to manufacture the product in question. If only the icon is on display, the whole unit is recyclable.

In stock: Many items available off the shelf at quick turnaround time.

Made to order: For custom units, or units that require print, there will be a slight lead time on delivery.

**Minutes to assemble:** Guides you to the average time required to assemble each product.

No tools assembly: The no tools assembly icon means that you will simply have to slot units into place and will require no power or hand held tool during the process of assembly.

CONTENTS

PAVEMENT SIGNS
& A-BOARDS

We have a wide range of durable **Pavement Signs** and **A-Boards** to suit a multitude of indoor and outdoor promotional uses. Beyond the traditional shop front message board or branded 'sign post', our market leading pavement signs can be seen across exhibition centres, car parks, airports, stations, education establishments, leisure and hospitality venues.

Whether it's the most popular sign over the past 20 years, the **Swinger**, or the UK's current biggest selling pavement sign, the **Ecoflex**, these and other signs in the range are admired for their design, performance, safety and value for money.

The products are available in a range of sizes with various panel options, such as printed panel, poster pockets (**Swinger**) or **HPL Chalkboard** panels. The **Ecoflex** family features our unique patented wedge, allowing for swift and easy assembly.

For larger free standing signs with longer viewing distance, or just to make a bigger impact, see our **Forecourt Signs** on pages 35 to 45.

SWINGER Patent No. EP 0809227   UK Design Registration No. 2071096   EU Design Registration No. 001274229

Why is Swinger the UK's market leading sign?

- Beautifully designed and engineered.
- Low centre of gravity for maximum stability.
- Quick and easy 'no tools' assembly.

- Individually boxed and flat packed with instructions.
- Soft round styling for high pedestrian safety.
- Fully recyclable.

Patented 'D-Flex' panel hangers allow for easy 'no tools' panel fitting. Flexibility and low friction ensures panel performance.

Stylish steel frame - can be powder coated in any RAL colour (minimum order quantities apply).

Choice of aluminium panel (shown) or magnetic poster pocket.

Option to have embossed logo in any base (minimum order quantity 500).

Solid recycled PVC or water fillable HDPE polyethylene base options (recycled PVC base shown).

'No Tools' Assembly

- Simply push base onto frame.

OR

- Lift into view with Swinger 2.

Top Opening Poster Pockets

Patent No. GB 2464773 EU Design Registration No. 001274229

- Quick and easy poster change.
- Self closing magnetic seals.
- Virtually no risk of poster loss.
- Provides drain channels to prevent weather damage.

Built-In Wheels

- Enables safe and easy movement into high visibility positions.
- Fitted on Swinger 3000 and 4000.

Water Fillable Bases

- Optimum stability.
- Fitted as standard on Swinger 3000 and 4000.

FORECOURT SIGNS

If you are looking for high impact, durable and repositionable outdoor displays, our market leading forecourt signs are the perfect solution. Large format signs are well suited to petrol and dealer forecourts, supermarkets, out of town retail parks, and any store front location where high visibility promotion is required.

Many of our signs include protected design features, and all products only come to market after rigorous testing, and only when we are satisfied that they are ready for the demanding environments that they have to perform in.

At the 'small budget' end we have the **Sightmaster 3** poster sign, featuring a water fillable base and snapframe display. At the other end of the scale there is the flagship **Sentinel®** – designed and manufactured by Signwaves for maximum stability and long term performance, as tried, tested and trusted by many of the UK's leading brands and retailers.

SIGHTMASTER 3

Stylish spring mounted snapframe forecourt sign in a range of poster sizes.

The Sightmaster range has proven a popular large format display solution – delivering cost effective tactical promotion in any forecourt position. The Sightmaster 3 provides two colour options with advanced style, stability and performance.

• Front opening aluminium snapframes for quick and easy poster change.

• High strength ACM back panels, has smooth white fascias for option of self adhesive vinyl graphics, or liquid chalkpen messaging if posters are not in use.

• Unique water fillable HDPE base with built in wheels.

• Heavy duty spring mounts ensure stability by allowing panel deflection in the wind.

• Anti-glare PVC poster covers ensure clarity of message.

• Soft round corners for safety.

• Transit trolley available to aid movement when full – 30" x 40" and A0 sizes only.

• Ideal for forecourts, entrance approaches, car parks, retail outlets and shopping centres.

Large base designed for use with our transit trolley (see page 41 for details).

Nylon feet reduce wear and increase stability on uneven surfaces.

Exclusive design base has optimised water capacity for advanced stability.

Improved corner brackets on 30" x 40" and A0 sizes.

Market leading stability and performance!

SENTINEL®

The ultimate forecourt poster sign.

Smooth rounded corners for safety.

Zinc phosphate and polyester powder coated steel frame (50 x 25mm oval).

Silver border and frame as standard. Also available branded/printed in custom colours (minimum order quantity 25).

Clear polycarbonate poster covers offer high impact resistance and UV stability.

Built-in wheels - easy to move with our purpose designed trolley (see page 43 for details).

Sentinel header available separately (see page 43).

Stainless steel tamper-proof fixings retain poster cover at the top and enable ease of poster change by one person.

Back panel can be printed to ensure brand presence when posters are not in use.

Magnetic poster covers provide superior weather resistance and poster security.

Water fillable polyethylene base precisely calculated for optimum stability, made using recycled materials.

Black base as standard to hide dirt and marks.

Magnetic poster covers for quick and easy poster change.

Sentinel® working hard for major retailers across the country.

Lower cost, lighter weight base option available for 30" x 40" and A0 sizes. Volume/contract enquiries only.

External poster signs are a powerful advertising tool. With 70% of purchase decisions made in-store, driving footfall inside is key. Nothing does that better than Sentinel® in a choice of 3 high impact poster sizes.

POW! SIGN Patent No. 1520080.1

Going above and beyond the standard rectangular poster or banner sleeve, the *POW!* Sign is guaranteed to draw attention.

This innovation in large format signage introduces striking 'breakout' shapes. A new dimension to all leisure, retail and forecourt locations, *kerbPOW!*

Panel sleeve design enables easy and cost effective graphic updates.

Maintenance free reinforced polypropylene sleeve (15mm thick).

Vibrant, larger than life images for high impact promotion.

Long range visibility to capture both pedestrians and motorists attention.

Wholly customisable with endless text and image combinations.

Freestanding - no groundwork needed, waterfill and concrete base options available.

Made to order
Minimum order quantity 10

CAFÉ & ROPE BARRIER
SYSTEMS

Advertise and manage space simultaneously with these stylish market leading products.

Adfresco® Café Barrier hardware is manufactured to our patented design and quality standards; it combines style and performance at an attractive price.

Banners can be produced by you to our templates, or alternatively let us provide you with a finished product. There are a choice of banner options available, printed to your customer's requirement.

The **Adfresco®** poles and bases can also be used to create an attractive queue management system with either twisted or velvet ropes, available in three colours.

ADFRESCO® CAFÉ BARRIER

Stylish, strong and effective - create the perfect space for your customers and brand. Available in Stainless Steel or Satin Black.

Stainless Steel showing lower cross rail and sliding ring tether option.
Satin Black showing bungee tether option.

- Unique patented design with market leading features and benefits.
- High quality stainless steel for optimum outdoor life and scratch resistance.
- Tough satin black pole and base for an alternative look.
- 13.5kg x 360mm diameter base provides excellent stability.
- Lower cross rail for full Disability Discrimination Act (DDA) compliance or lower cost bungee fixings available.
- Flat packed for easy storage and transport.
- Easy to assemble. Spanner included with base/pole fixing set.
- Stainless steel top cross rail.
- Choice of banner sizes and materials including Light-Block PVC, Mesh PVC and Polyester Canvas.

For greater value – LT Base and Pole.

- Stainless steel.
- Stainless steel top cross rails.
- Low profile concrete filled base. Weight: 10kg.
- Supplied with cost effective bottom bungee tether.
- Same choice of banners as Adfresco®.

# Unique features of Adfresco® Café Barrier:

Top/Clip

Sleek top designed for comfortable lifting, comes with quick release cross rails. Supplied with a protective cover to prevent damage in transit.

Adfresco® Sliding Ring

Unique patented 'smooth glide' ring allows banner to flex and eliminates wind damage associated with traditional designs. Adfresco® only.

Chrome Plated 'Eye Plate'

An additional mounting chain suitable for cross rails.

Adfresco® Base

Concrete filled 13.5kg rubber edged base provides optimum stability, prevents damage to floors and gives the option to roll rather than lift.

Bottom Cross Rail

Optional rigid lower cross rail provides audible 'tap' for visually impaired (DDA compliant).
Not available with LT.

Bungee Connector

Optional lower bungee connector holds banner taught – a cost effective alternative to a bottom cross rail. Prevents over stretching of banner.

In stock

Recyclable
Stainless steel poles and basess.
Designed for easy 'end of life' recycling

ADFRESCO® CAFÉ BARRIER - SELECTION TOOL

Adfresco® allows you to individually select the elements to create your perfect Café Barrier - all with market leading features and benefits.

1

Choose your poles & bases

Stylish and strong stainless steel

Optimum outdoor life and scratch resistance.

OR

Classy and cost-effective satin black

A popular alternative to stainless steel.

LT Pole & Base

Stainless steel. Only available with lower bungee option.

2

Choose your lower tethering method

Double cross-rail option

Provides strength, tautness and Disability Discrimination Act (DDA) compliance.

OR

Single cross rail and lower bungee option

Select the bungee pole connector and bungees instead of a second cross rail.

Sliding ring

Protective washer to be used with sliding ring

Bungee

Bungee connector

3

Choose your banner width

For the most exposed locations a shorter banner width performs best: eg. sea front cafe - 1200mm.

**1200mm** **1500mm** **1800mm**

4

Choose your banner material

Choose from a wide selection of printed banners available in a choice of materials – all suitable for outdoor use.

Light Block PVC
780gsm

Polyester Canvas
450gsm

Mesh PVC
380gsm

Reinforced and totally opaque, this is perfect for double sided print, long outdoor life and vibrant colour reproduction. The easy wipe clean surface makes it ideal for front of house food and drink environments.
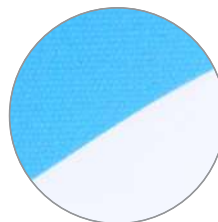

This close weave 100% polyester fabric has all the appearance, weight and feel of a traditional canvas yet, unlike cotton based canvases, it is cost effective and will not rot or stain. Available full colour printed to one side with the option of white or single colour on the reverse.
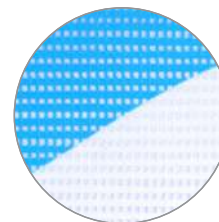

Provides a semi transparent finish and allows some air to pass through making it ideal for windy locations & subtle branding. Full colour print is available on one side (white on reverse).

All of our banners are suitable for outdoor use. To maintain best appearance, occasionally sponge down with warm soapy water. Use ratio: 30ml liquid soap / 10 litres water.

Chrome plated 'Eye Plate' available for wall mounting.

In stock

Recyclable
Stainless steel poles and bases. Designed for easy 'end of life' recycling.

Please Note: These ropes are designed for a long, maintenance free life indoors. Outdoor use in sunlight or rain will cause the rope colour to fade and reduce the life of the product.

PROJECTING
SIGNS & FLAGS

A range of free standing, wall and glass mounted 'projecting' signs and flags for retail, events and exhibitions - inside or out.

It includes our high quality **Feather**, **Teardrop** and **Rectangular Flying Banners** incorporating the finest carbon fibre poles and friction free bearing spindles for optimum outdoor performance.

Projecting Flange Signs in three standard shapes are also available, however Signwaves can make them to custom shapes and sizes. We can also produce displays flags in custom designs for use with our **Standard Flag Kit** and our patented **Noscrewz Flag Kit**.

Whilst we are happy to supply hardware only, why not take advantage of our confidential, hassle free and competitive printed textile flag service. These are available in quantities as low as one.

FLANGE SIGNS

Low cost, high impact flat projecting signs, available in 3 standard sizes.

- Cost effective, double sided shop front advertising.
- Exceptional value, 5 plus years of outdoor life.
- 2mm aluminium panels with a gloss white polyester powder coated finish – ideal for vinyl application.
- 50mm fixing flange, pre-drilled with round fixing holes as standard.
- Available digitally and screen printed (no minimum order quantity for digital print, screen print minimum order quantity 25).

SUCKER FLAGS

Visible and versatile – inside or out.

- Ideal for chillers, product displays, static vehicles or windows.
- Polyester preprinted flags complete with black reinforced elastic hem.
- Simply secures to smooth surfaces such as glass, plastic or metal.
- Carbon fibre pole keeps flag tight and swivels in the wind.
- Adjustable angle and double sided print for 360 degree effectiveness.
- Quick and easy to change flags for new promotions.
- Kit includes pole bracket and flag.
- Black reinforced elastic hem provides optimum strength.

Single lever secures flag
and allows quick release

NOSCREWZ FLAG Patent No: GB 2443417

Ideal for glass mounting.

- Safe, tamper proof and secures on any flat/smooth service.

- Incredibly quick and easy to use, simply push onto surface and twist. No tools required.

- Kits include bracket, sectional pole, collar and finial.

- Suitable for internal and external use.

- Plain 'Display Flags' held in stock (780gsm reinforced light block PVC), ideal for vinyl application and available printed to order.

- Custom shaped flags also available (minimum order quantity 25).

How does NoScrewz work?

A simple twist creates a vacuum that locks the bracket in place.

Simply twist back and pull upper or lower tab to release bracket.

2

Pole Sleeve

Non elasticated wrap around pole sleeves supplied as standard or reinforced black elasticated sleeves are available at a small additional cost.

Standard wrap-around non-elasticated sleeve.
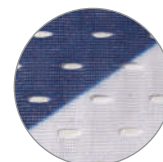

Black reinforced elasticated sleeve.

3

Flag Material

'Close-weave' polyester (115gsm) fabric supplied as standard and 'Airmesh' polyester (135gsm) is available at a small additional cost. Refer to opposite page for more details.
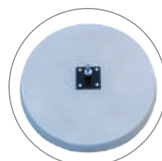

'Close-weave' polyester (115gsm)
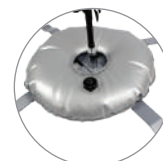

'Airmesh' polyester (135gsm)

4

Mounting Accessories

Whether your banner sits on hard or soft ground, indoors or outside, we have a mounting accessory perfect for every occasion.

See pages 70 & 71 for full detail of mounting options.
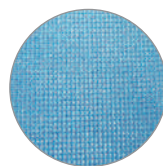

Concrete base

Cross base & water bag

Tank base   Ground spike   Wheel base

Flag Materials

Our standard flag material is a 115gsm 'close-weave' knitted polyester textile, chosen for its durability and image vibrancy. For optimum performance, a 135gsm 'airmesh' material is also available which, thanks to small holes in the fabric, presents less resistance in the wind.

Standard 'close-weave' polyester flag material (115gsm).
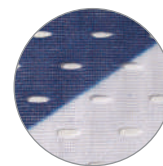

Optional 'airmesh' polyester flag material (135gsm).

Flag Pole Sleeves

As standard, our flags are supplied with printed, non-elasticated 'wrap-around' pole sleeves, giving maximum possible printed display area. For extra durability, we also offer a reinforced elasticated black sleeve. We recommend this for flags in exposed and unattended locations, such as roadside and 24/7 retail sites.
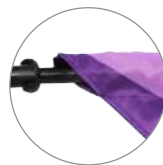

Printed wrap-around sleeves fitted as standard on all Flying Banner flags.

Optional black reinforced elasticated sleeve.

Dye Sublimation Printing

All Flying Banners are printed by a 'dye-sublimation' process which uses special inks and a post-print heating process to 'fix' the ink into the fabric, making it resilient and washable as well as maximising the mirror image show-through on the reverse.

Outdoor Performance

Naturally, Flying Banner life span depends on how and where they are used.

Teardrop flags generally last longer than Feather flags as the banner fabric is held in tension and experiences less movement.
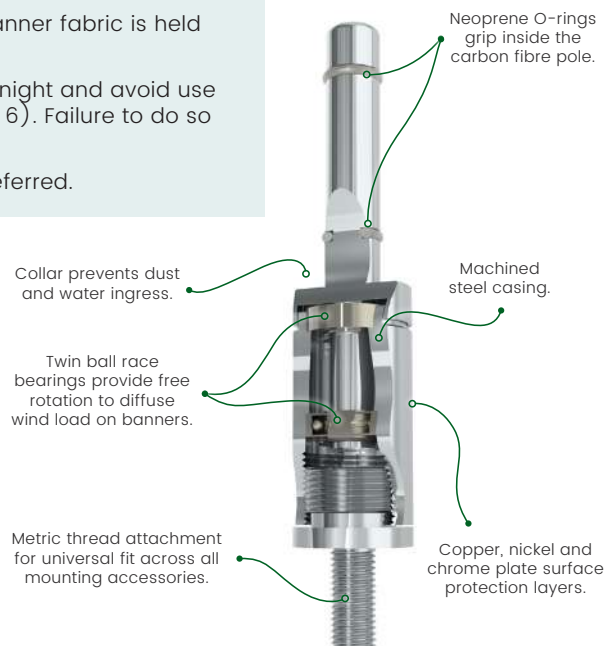

Whichever style you choose we recommend taking them in overnight and avoid use in inclement weather (i.e. 24+ mph wind speeds/Beaufort scale 6). Failure to do so will significantly shorten the lifespan of the product.

* Flag templates available on request, if own flag production preferred.

Anatomy of our Bearing Spindle

Engineered for optimum flag life and performance

Our stylish and intelligently engineered steel bearing spindle features in all our Flying Banner mounting accessories (see pages 68 and 69). It allows friction free flag rotation, so flags can easily align themselves in the wind, minimising banner turbulence for best visibility and reducing strain on the flag to maximise lifespan.

Neoprene O-rings grip inside the carbon fibre pole.

Collar prevents dust and water ingress.

Machined steel casing.

Twin ball race bearings provide free rotation to diffuse wind load on banners.

Metric thread attachment for universal fit across all mounting accessories.

Copper, nickel and chrome plate surface protection layers.

FEATHER FLYING BANNER

Feather shaped banner which flutters and rotates in the wind.

- High strength sectional carbon fibre pole.
- Market leading detail, quality and performance.
- Printed flags in standard or airmesh polyester textile to order.
- Choice of mounting accessories available.
- Printed, non-elasticated 'wrap-around' pole sleeves giving maximum possible printed display area as standard.
- We recommend an elasticated black pole sleeve for increased durability.

Showing standard 'wrap-around' self-coloured pole sleeve and ground spike mounting.

Tank Base

- A purpose designed water or sand fillable base with our leading low friction bearing spindle for all flag sizes.
- Far superior to alternative 'parasol' base offerings.
- 14ltr capacity, for water or kiln-dried sand.
- Made from high density polyethylene (HDPE).
- Designed for ease of handling even when full, due to built-in carry handle - satisfies manual handling guidelines.
- Stackable design - second tank (part FBSMTK) recommended for large flags outdoors. Provides up to 40kgs of ballast but remains easy and safe to carry in 2 parts.
- Screw cap for ease of filling.

GIANT POLE

Huge attention grabbing outdoor display.

- High impact display for 1.1 x 4.1m textile flag.
- Ideal for forecourts, shopping malls, exhibitions and events.
- 2-part water fillable polyethylene base for optimum stability.
- Telescopic aluminium pole with silver anodised finish (54mm diameter at base).
- Printed flags available to order (single and double sided).
- Printed by dye sublimation.
- No tools assebmbly.

Double Sided Flags

A twin layer of standard polyester fabric with central liner allows different designs on each side and a good level of opacity. Due to the added weight, double sided flags will not flutter in the wind in the same way as standard flags.
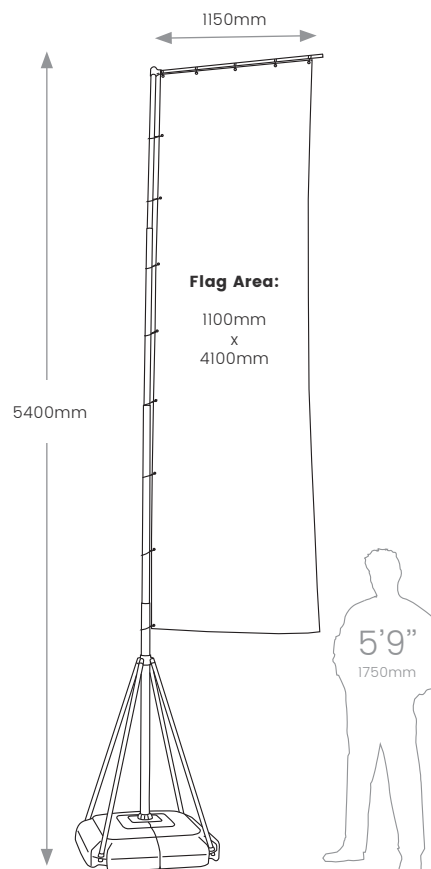

360° rotating flag arm.

Telescopic pole.

2 part base for ease of transportation.

SNAPFRAMES

We have one of the largest ranges and stocks of snapframes in Europe. Combine this with superior quality, service and incredibly sharp pricing on commodity lines, we should be your first choice for snapframes.

Next time you are thinking of buying a snapframe from elsewhere, particularly for outdoor use, ask the supplier if the poster cover sheets are UV stable. In other words, can they guarantee that the cover sheet will not tarnish within 6 months due to sunlight? We can! It is important for the customer whose main interest after all is an optically clear view of their poster message and branding.

Because we also manufacture, we can accommodate a wide variety of non-standard sizes and quantities, with no minimum order quantity. Fourteen stock finishes support our *Express Made to Order Service*, which commits to turnaround small quantity orders within 3 to 5 days.

Also available is our *Custom Manufacture Service*, which offers a further 74 RAL colours and over 20 BS 4800 colours. This service is offered in a range of frame profiles within the standard, security and lockable styles. Minimum order quantities may apply in some cases.

SNAPFRAMES

Low prices

Large stocks

Fast delivery

Wide range of styles

All our Snapframes feature:

- Quick and easy poster change.
- When closed, all fixings and opening methods are hidden from view.
- Silver anodised finish as standard (unless otherwise stated).
- Anti-glare PET poster cover sheets.
- Pre-drilled and individually boxed with screws and wall plugs.
- White or grey plastic back panels depending on size/style.
- Suitable for indoor or outdoor use. Note - poster cover sheets are not fixed and in high winds can become dislodged, wider frame profiles provide better poster security.

Fully Recyclable

For added security, see our **Security** and **Lockable Snapframes** on pages 81 and 82.

MINIMUS Patent No. 2531204

The lowest cost snapframe in the world.

Minimus Snapframes may not have a back panel but they provide a great way to display posters, advertisements and information on flat surfaces.

Our patented corner mouldings and high strength serrated springs keep the frame strong, secure and dependable.

- 25mm silver anodised profile.
- 4 stock poster sizes: A4, A3, A2 and A1.
- UV stable anti-glare PET poster cover sheet.
- Suitable for screw fixing or adhesive mounting (each unit individually boxed with set of screws, wall plugs and adhesive pads).
- If used outdoors laminated posters are recommended.

Fix in place.   Insert poster and cover sheet.   Close the sides.

In stock   **Fully Recyclable**

Patented corner mouldings with high tension serrated springs ensure strong grip on the poster

SECURITY SNAPFRAMES

Virtually impossible to open by hand.

- Easily opened by our hand held opening tool (available separately).
- Posters are kept safe and secure, making them ideal for those spaces at risk of unwanted tampering (schools, reception areas etc.).
- Available in 2 profile sizes (25mm and 42mm).
- Supplied with anti-glare poster cover sheets for clear poster display.
- Pre-drilled and individually boxed with screws and wall plugs.
- Suitable for indoor and outdoor use, with improved water resistance.
- Silver anodised finish as standard – 25mm profile available in almost any RAL colour through our bespoke snapframe service.
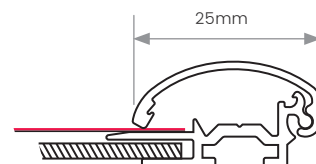

Hand-held opening tool.

Recyclable
Aluminium frames and PET poster covers

FRAMEWORKZ

Unlike any other poster frames available, Frameworkz Snapframes can be digitally printed with almost any design.

From logos and text to images and patterns, the choice is yours and the opportunities are truly endless.

- Front opening aluminium snapframes for quick and easy poster change.
- Suitable for external use (2-3 years in temperate climates).
- Minimal distance between frame and poster allows design to 'cross over'.
- Anti-glare 500 micron PET poster covers as standard or optional 750 micron gloss clear polycarbonate at additional cost.
- Pre-drilled for wall mounting.
- Available in any size from A3 to 40" x 60".

Made to order
Minimum order quantity 10

Recyclable
Aluminium frames and PET poster covers. Mechanical fixings throughout for easy 'end of life' recycling

Flat 50mm wide print surface.

Stylish gloss black border.

When closed, all fixings and opening method are hidden from view.

Minimal distance between frame and poster allows design to 'cross over'.

Poster Size	Display Area (mm)	O/A Dimensions (mm)	Profile Depth (mm)
Any size from A3 to 40" x 60"	Poster -31.5	Poster +79	15

Due to frame cutting and artwork tolerances of +/- 1mm, a visible 'step' across the mitred corners is sometimes unavoidable. Designs featuring straight lines across the corners will be particularly prone to this.
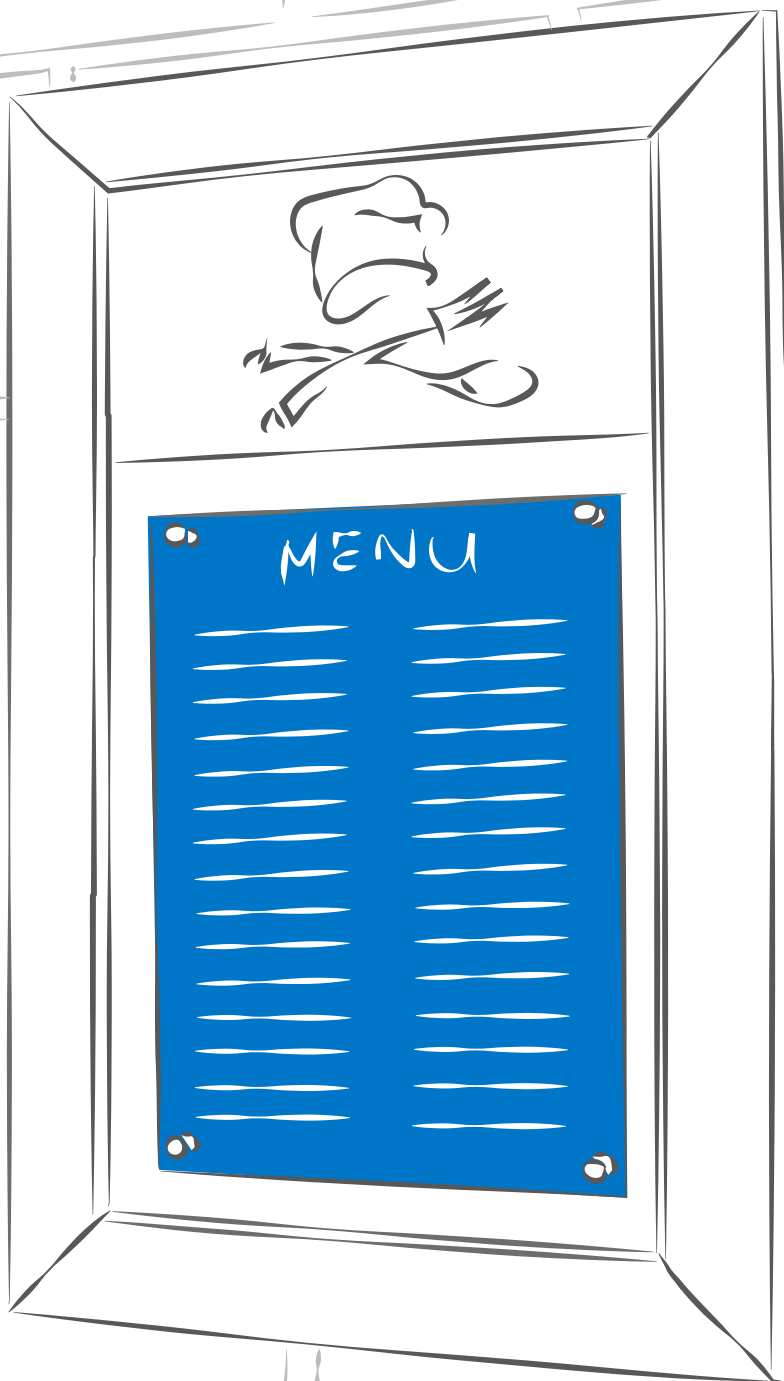

NON-ILLUMINATED
POSTER FRAMES & NOTICEBOARDS

Our selection of **Non-Illuminated Poster Frames** and **Noticeboards** offer an array of solutions for poster, banner and menu protection and presentation.

The range includes our market leading **Slimlok Menu Case**, great for temporary poster promotions. Our original **Slimlok Poster Case** offers retailers a trully lockable display solution. Both are available in a range of standard sizes in a choice of upto 8 stock colours with no minimum order quantity. Additional colours, bespoke sizes and even permanent branding can also be accomodated, although minimum order quantities may apply in some cases.

Our innovative **Headliner** makes window displays professional, presentable and cost effective. Commonly seen in convenience stores, post offices and supermarkets, the **Headliner** provides a fixed poster display for windows, doors and clear surfaces.

Nearly all of our non-illuminated frames are in stock and available off the shelf ensuring quick despatch to your customer.

SLIMLOK POSTER CASE

Stylish poster display cases with lockable doors.

- 52 x 30mm profile durable aluminium frame.
- Vandal resistant 1.5mm polycarbonate glazing panel.
- Internal clips hold posters securely in place and allows for quick and easy poster changes.
- Ideal for outdoor use.
- Door stays supplied as standard on silver units at A1 or larger (optional on black units).
- Each poster case supplied with a set of keys.
- For added security, poster sizes A1 and larger have two locks.

HI-SIGHT Registered Design No: 000879876

Thanks to its unique 'pull down' poster cartridge, the Hi-Sight has many advantages over traditional poster frames.

- Can be mounted up to 3 times higher than a regular frame.
- Quicker, easier and safer, no need to stretch or use ladders.
- Reduced risk of tampering and vandalism.
- Hard wearing aluminium frame.
- Fixed polycarbonate cover with magnetic seals, virtually no risk of poster loss.
- Excellent weather resistance.
- Suitable for indoor and outdoor use.
- Hidden pre-drilled holes, ready for wall mounting.

Apply finger pressure just above border and lift.

Poster cover security fixings.

Internal frame detail.

Ideal for out of town retailers. The Hi-Sight maximises visibility of store front promotions – vital in the drive for greater awareness and increased sales.
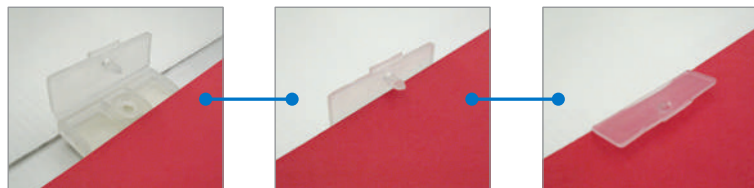

Traditional frames – low visibility.

Hi-Sight – high visibility!

Standard 40" x 60" poster frame

Max height of 2.1m from ground to top of poster frame allowing comfortable reach to change poster.

Pull down poster cartridge provides easier and safer poster change.

Posters are held in place by 4 'pinch' holders on top of cartridge

Open 'poster-pinch' mounts to add or change posters.

Place poster within 'poster-pinch' opening.

Close 'poster-pinch' mounts to pierce and grip poster.

ILLUMINATED POSTER FRAMES, NOTICEBOARDS & DISPLAYS

In this section you will find a variety of point of sale displays, that give energy efficient impact with messages 'standing out' through the use of illumination.

Ranging from **Freelight Plus**, the simplest in-store 'illuminated' display at one end of the range (without an electrical component in sight!), to the LED illuminated **Edgelit XT**, with it's exceptional brightness levels, build quality and style.

Low voltage LED illumination features across many of these elements. LED's bring key benefits; quick and easy installation, low power consumption and maintenance-free longevity, all combine to deliver eye catching displays with low running costs built in as standard.

LED & FLUORESCENT LIGHT INFORMATION

What's the difference between Fluorescent Lights and an LED?

Our range of illuminated displays incorporate LED or Fluorescent tube lighting depending on the size and structure of each unit. Lamp options are carefully considered during the design of our products to ensure for optimal, efficient and even illumination.

Benefits of Fluorescent tubes:

Fluorescent bulbs are typically used to light up full rooms, so you can ensure for a full and concise illumination from your display. Although they have a slightly higher energy consumption than their LED counterparts, they can still provide over 10,000 hours of illumination before needing to be replaced.

Benefits of LED lighting:

LED stands for Light Emitting Diode and converts electricity into a super-efficient, long lasting and instant illumination. They have lifespan of around 50,000 hours before needing to be replaced - which converts to around 6 years of constant illumination. LED also use 90% less energy than Fluorescent bulbs, providing retailers with a cost efficient illuminated option.

Our stylish 'extra thin' LED Snapframe.

- Specially treated acrylic panel provides strong, even illumination across the entire surface.
- Front opening aluminium snapframes for quick and easy poster change (silver anodised 25mm profile).
- Available single sided or double sided (made to order).
- Anti-glare PET poster covers ensures clarity of message.
- Slim, elegant design: single sided units only 19mm deep.
- Osram LEDs emitting 6500K 'daylight' colour temperature.
- CE certificate supplied with each unit.
- Also available in custom sizes* and colours (made to order, minimum order quantity 5).

PORTABLE EXHIBITION
DISPLAYS

Our portable exhibition displays and roll-up banner stands are designed for one purpose – maximum impact at minimum cost. Almost all can be used to attract the attention of onlookers in a wide variety of event and retail environments.

The range has been purposefully chosen to be focused and functional - taking the confusion out of a multitude of virtually identical options.

Many of our portable exhibition displays can be bought as 'hardware only' for you to apply your own graphics. However we do offer in-house printing at competitive prices.

Our remarkably good value **Pop-Ups** create a powerful backdrop in next to no time and can be packed away just as quickly! We also have many roll-up banners available, including **Rollsby** and **Eco Roll-Up Banner**.

CURVED POP-UP

The ultimate exhibition accessory.

Each kit includes:

- Collapsible aluminium frame (12mm diameter, silver finish) with black injection moulded fittings - sturdy, durable and long lasting.

- Set of magnetic bars and roll of magnetic 'B' tape.

- Roll of magnetic 'A' tape (for vertical panel edges).

- 2 × 150W clip-on spotlights with cable and plug.

- Semi-rigid trolley/case with built-in wheels and telescopic handle.

- Supplied with self adhesive 'headers' and 'kickers'. Headers secure panels at top, whilst kickers hold shape at bottom.

Optional Printed Panels:

- 420 micron opaque white PVC.

- Supplied ready to fit with 'kick-strips' pre-applied.

- Available laminated (80 micron matt textured scratch resistant PVC).

ECO ROLL-UP BANNER

Low cost, spring loaded 'roll-up' for single sided banners.

- Quick and easy to use.
- Soft round corners - no sharp edges.
- Available in 800mm and 850mm wide banners.
- Self-adhesive strips at top and bottom for easy banner installation.
- Silver anodised aluminium case, top rail, pole and folding feet.
- Complete with black padded carry case and full instructions.
- Available with digitally printed 'standard' 220 micron (0.22mm) rigid PVC or 'premium' 165 micron (0.165mm) polyester film banners.
- Hardware refined for the best flat & vertical banner presentation.

In stock

1 minute to assemble
+4 minutes if banner not pre-loaded

Recyclable
Aluminium case, top rail and folding feet

Banner Size (mm)	Display Area (mm)	O/A Dimensions (w x h x d mm)	Weight (kg)	Order Code
800 x 2000	800 x 1985	820 x 2050 x 365	3	ERBS8MK3
850 x 2000	850 x 1985	870 x 2050 x 365	3.1	ERBS850MK3

Please note:
The Eco Roll-Up Banner is designed and built to a market-leading price and the savings derived from the use of lightweight materials and high speed assembly methods to achieve this can result in minor marks or irregularities in the product finish.

Banner Materials:

We recommend smooth surface, lightweight rigid roll materials for Eco Roll-Up Banners, such as 125 micron grey back polyester or 220 micron matt opaque PVC. Flexible, reinforced PVC banner materials have a textured surface and/or incorporate polymers which can react with adhesive tape so should be avoided. Do not use materials more than 300 micron thick.

ROLLSBY

For all round value roll-ups don't come any better than this!

- A useful promotional tool, with little hardware costs.
- Single sided roll-up for interchangeable banners.
- Top 'clamp rail' and bottom Velcro strip makes banner installation and update a simple process.
- Two spare self-adhesive Velcro strips supplied with each unit for future banner updates.
- Telescopic pole for 1550 – 2160mm height adjustment.
- Stylish silver anodised aluminium casing with black ABS end caps and pole fittings – tough and hard wearing.
- Central stylised chrome foot.
- Premium padded carry case included with adjustable carry strap.
- Available with digitally printed 'standard' 220 micron rigid PVC or 'premium' 165 micron grey-backed polyester film banners.
- Premium banners prevent poster curl and are recommended for regular use.

Hard wearing/protective ABS end caps.

Stylish chrome foot.

Top clamp rail includes black push-fit end caps.

MODULAR POLE DISPLAYS

CHALKBOARDS
& ACCESSORIES

This range includes everything from wall-mounted **Slatted Boards** to **Counter** and **Table-Top Boards**.

Combined with the modern benefits of liquid **Chalk Pens**, Chalkboards offer traditional marketing charm with instant message change flexibility, making them perfect for menus and short term promotions in pubs, restaurants, cafes and other hospitality venues.

HPL CHALKBOARDS

ABOUT HPL

Our remarkable 'High Pressure Laminate' (HPL) chalkboards are capable of almost limitless use and application.

- Stays looking new for longer and never needs re-painting!
- Easy to clean with water and household cleaner.
- Weather and scratch resistant anti-glare surface.
- Suitable for use with traditional chalk and liquid chalk pens.
- Direct to surface screen and digital printing available.
- Available in a range of thicknesses: 2, 3, 4 and 6mm.

HPL's **hard wearing**, **maintenance free** properties make it ideal for both **internal and external use**. The specially formulated melamine surface means **your chalkboards stay looking new**.

Custom made, wall mounted display.

- Available in 2, 3, 4 and 6mm thicknesses.
- Virtually any size and shape.
- Drilled ready for wall mounting.
- Available plain or printed, single or double sided.

Made to order
Minimum order quantity 10 (plain) / 25 (printed)

Waterproof chalkboard pens.

- Pens are rainproof after just 1 hour yet erasable with a damp cloth.
- Superior colour vibrancy and outdoor durability shown from our independent outdoor tests.
- Top tip... Mr Muscle 'window' is an excellent chalkpen cleaner.

£ 1.00
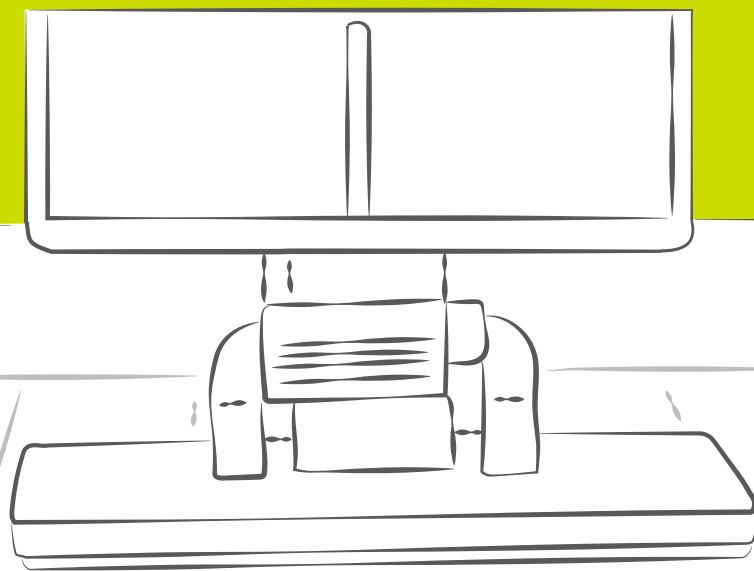

SIGN HOLDERS

This category covers a variety of fixings, frames and holders to support your own rigid signs/graphic panels.

The range includes **Stand-Off Sign Fixings**, that add prestige to any wall mounted sign. They assist mounting on to uneven surfaces, and ensure no visible dirt build-up behind a clear sign panel. Available from stock in two popular sizes and four finishes.

Another key product in this category is the **Premier A-Board Frame** - available by popular demand. Our 2 stock sizes allow you to make up A-Boards with a variety of sign panel materials simply and cost-effectively. It also has the benefit of our unique, hard wearing rubber hinges that set it apart from other A-Board designs.

STAND-OFF SIGN FIXINGS

Add an architectural finish to any mounted sign panel.

As well as providing an attractive 'stand-off' feature for any sign panel material, these fixings will accommodate any uneven wall surface. This could include any texture or render present on brick or stone walls.

Fixing sign panels forward from walls allows air to move freely across both the front and rear - eliminating condensation or any noticeable dirt build-up from behind. This is essential for clear sign materials (like glass or acrylic) so that the message is always visible.

Our fixings have no apparent screw heads, so this concealed mounting method acts as an effective tamper deterrent.

• Enhance the appearance of any sign panel.

• Hold sign panel thicknesses from 2mm to 12mm.

• Supplied in pairs in protective polythene enclosures.

• Screws and wall plugs are not included (since no two surfaces are ever the same, fixings should be selected to suit).

• Use Stainless Steel stand-offs for long life in all external locations.

			Hexagonal (made to order)	UYUP074100

RECOMMENDED POSTER MATERIALS

To ensure best performance against condensation/moisture ingress in outdoor poster advertising, we recommend:

For 1-3 months life

Wet strength, water resistant or waterproof paper (115–200gsm)

Additives included during paper manufacture prevent the paper from breaking apart when in contact with moisture, ensuring it remains strong and stable. These are common specifications for short to medium term poster campaigns and billboard advertising.

For 3 months+ life

Lamination

Encapsulating a paper poster in thin sheets of clear plastic. This is a common means of protecting posters for outdoor use when water-soluble inks are used. Delivers reliable performance if the encapsulation is made to seal around the whole perimeter of the poster.

Printing onto plastic

Synthetic Paper (80 micron minimum thickness polypropylene), sometimes termed 'Poly Poster', or 220 micron PVC are cost effective alternatives for longer-life applications e.g. displaying a business service offer, restaurant menus or repeating seasonal promotions.

Maximise your poster performance with our design tips

- Use font in lower case with 80mm+ height for fast recognition.
- Simple typefaces make message clearer - avoid serif typefaces and italics.
- Amplify images and messages by using outline silhouette and drop shadow effects.
- Reduce heat absorption (solar gain) on outdoor poster signs by limiting regions of dark colour print.
